

**Erratum: Asymptotic Scaling Behavior of Self-Avoiding Walks
on Critical Percolation Clusters
[Phys. Rev. Lett. **113**, 255701 (2014)]**

The scaling exponents for the end-to-end distances of self-avoiding walks on incipient critical percolation clusters (ic) and their backbones (bb) obtained by simple least-squares power-law fits were given slightly incorrectly due to an accidental slip. The correct values corresponding to the straight fits shown in Fig. 3 are

$$\nu_{ic} = 0.6462(4), \quad \nu_{bb} = 0.6467(7),$$

rather than $\nu_{ic} = 0.6433(4)$ and $\nu_{bb} = 0.643(1)$. The estimates obtained from fits with confluent correction terms are correct as given. All conclusions of the Letter remain unchanged.
